- Provided information and support to patients 24/7 through our American Cancer Society National Cancer Information Center at 1-800-227-2345.
- Transported patients to their life-saving cancer treatments through our Road To Recovery transportation program.
- Provided free lodging in our Hope Lodge to patients who traveled to Tampa for their life-saving cancer care.
- Provided a one-on-one virtual connection for newly diagnosed breast cancer patients with a survivor, through our Reach To Recovery program.

# THE HISTORY OF THE CATTLE BARON'S BALL

The first American Cancer Society Cattle Baron's Ball was held in 1974 in Dallas, Texas. Since then, the Cattle Baron's Ball has grown into one of the premier fundraising events, both locally and across the nation, supporting the American Cancer Society's mission to save lives, celebrate recovery, and lead the fight for a world without cancer.

The Tampa Cattle Baron's Ball was the first of its kind in the state of Florida. Featuring remarkable support from leading Tampa Bay area business executives and community leaders, Tampa Cattle Baron's Ball continues to make a measurable difference in the fight against cancer year after year. This event brings community members together, who are committed to raising funds and awareness to help finish the fight.

# WHY BECOME A CORPORATE SPONSOR

Partnering with the American Cancer Society — the largest and most respected voluntary health organization in the U.S. — will bolster your company's reputation and demonstrate your commitment to serving the community.

74% of consumers are likely to support a sponsor associated with a charity like the American Cancer Society.

Our brand helps to clearly identify our organization, set it apart from other organizations and ultimately create relationships with our communities.

The American Cancer Society has a 98% recognition rate among Americans. No other health organization has a higher rating.

Americans believe cancer is the single most important health problem they face.

Approximately 1.9 million new cancer cases are expected to be diagnosed in the U.S. this year. More than 600,000 Americans will lose their battle.
